EXPERIENCE

FRONTEND DEVELOPER - INTERN

Digibiz Systems

August 2023 - Present

- I am actively involved in static website development projects.
- Utilizing HTML, CSS, JavaScript, and PHP to design and develop websites.
- Focus lies on achieving responsive design and ensuring cross-browser compatibility.

PROJECTS

INTERNSHIP PROJECTS: WEBSITES WITH RESPONSIVE DESIGN

During my internship, I successfully completed projects utilizing HTML5, CSS3, JavaScript, and PHP. The developed websites are responsive design.

EMOJIFY

We implemented Emojify using face recognition with machine learning and deep learning techniques. Recognize and classify facial expressions in real-time and associate them with appropriate emoji representations.
